THE CAULDRON

Tina Simmons, Editor

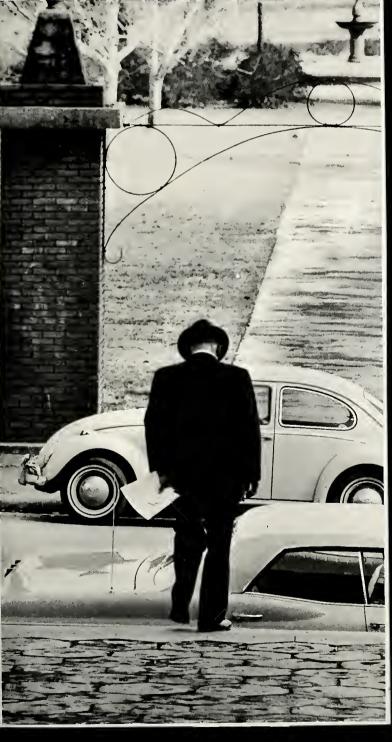

Mercer University Macon, Georgia 1966

A steeple splitting the sky . . . a chime that tolls the pigeons from their hiding place . . . a student who faces a new frontier . . . a teacher who gives the challenge to greater learning . . . these constitute the contemporary university . . .

Buildings old and new exist as looming cocoons from which emerge makers of tomorrow . . . more buildings will come, others will pass away; yet as they exist, their purpose is a preamble to life in a modern world . . .

A teacher's gesture . . . a student's reaction . . . a nerve ending relays a response . . . a mind is awakened . . .

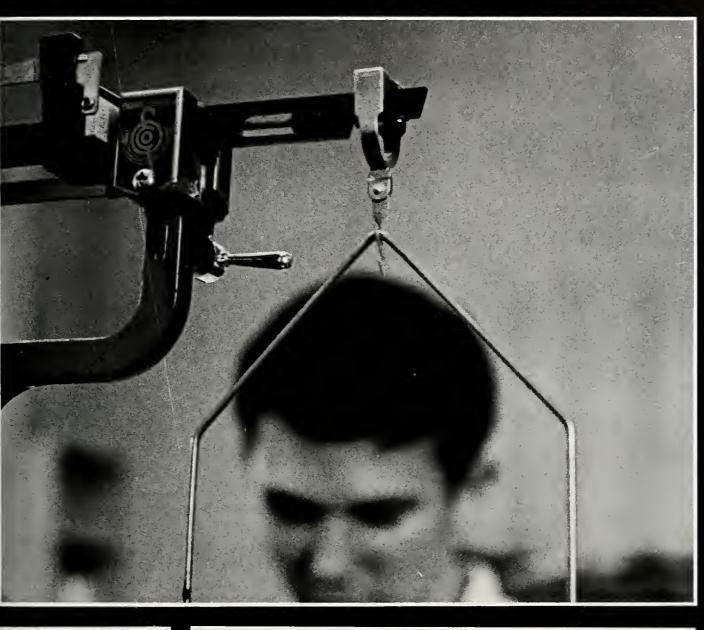

A Contemporary Science Center . . . a prostrate frog . . . the smell of H, S . . . an out-of-date Periodic Chart . . . Mercer gains her place in a scientific world . . .

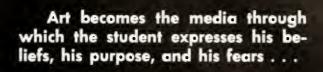

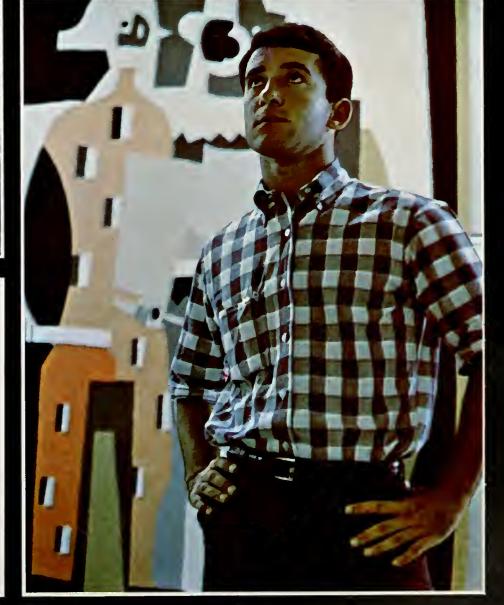

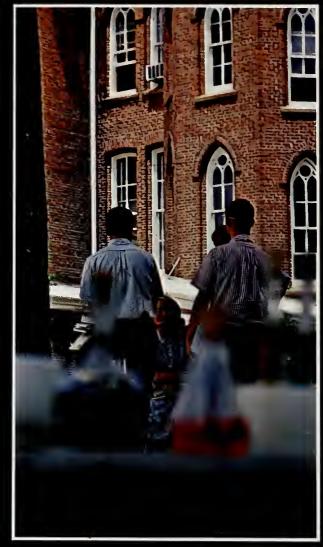

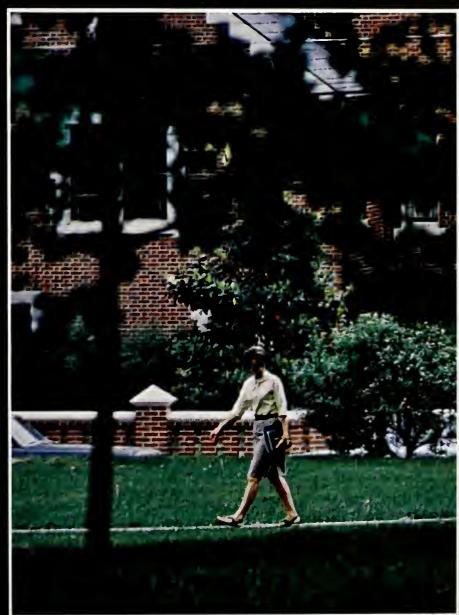

Three no-trump . . . late permission . . . chapel break . . . a high school grad becomes a college norm . . .

A building made for learning . . . a teacher provoking a thought . . . a canvas revealing an emotion . . . a Greek weekend creating three days of bliss . . . a room that must become a home . . . these are some of the atoms which form the molecule of a contemporary university . . .

What is a contemporary university but the people who comprise it?

The apathetic ones; the inattentive, disinterested ones; the enthusiastic ones; the methodical, punctilious ones; the eccentric ones; the unstifled, involved ones.

This man is one of the last description. Intelligent, interested, and concerned through his inquiring awareness. Contemporary university — the key to its advancement.

Bears End Winning Season Best in Eight Years!

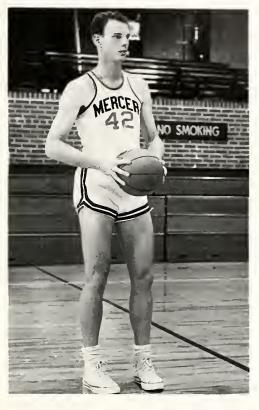

Reeves odds two more to Mercer's score.

Hold It!

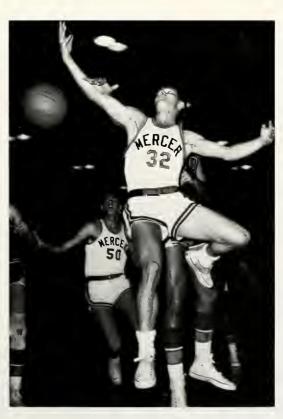

The 1965-1966 season proved to be the most successful in the last eight years for the Bruins as they came out on the winning side of a 13-10 record. The team has been going through what past **Cauldrons** have noted as a rebuilding process, and from the anset of the season, it laoked as though Caach Bobby Wilder has accamplished a palished ball team.

Senior, Chuck Newton, forward and center.

No foir!!!!!

One foul the referees couldn't hove missed.

Jock Manton, senior Bear, guard.

Senior Bears

The Bruins had no super-stars and relied mostly on a cohesive team effort to swat down thirteen of twenty-three opponents. Each of the team's starters shared in the basket-stuffing, with five Bruins hitting in double figures for the season. Captain Bob Reeves led the averages with 13.8 per game, with Steve Moody close behind, averaging 13.5. The other double figures were: Jud Roberts, 12.2; Jack Manton 11.6; and Bill Naylor 11.6.

The Freshmon of the Bear Team—Jud Roberts, guord.

Jump Steve, Jump!

No Steve, the boll not your hand!!!!

Steve Moody, forward.

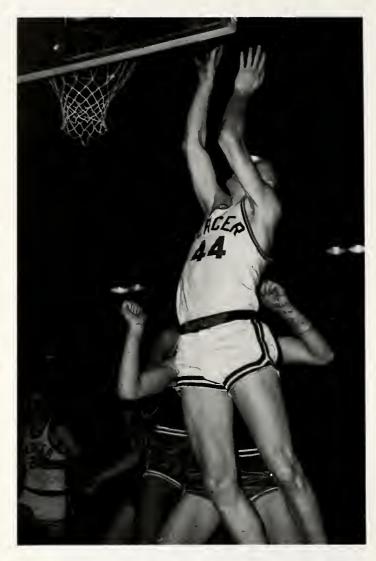

Tom Mitchell, center.

The team was greatly aided by freshman Jud Roberts, who should prove to be a great asset next season. The Bruin squad will be hindered by the loss of starters Manton, Newton, and Reeves. The 1966-67 season should see Tom Mitchell, Jud Roberts, Bill Naylor, and Steve Moody returning as well as three great freshman prospects drafted this season by Coach Wilder.

The Bruins pasted an averall average of 76 points per game while their opponents mustered 73.3. The Bruins put victories on the baards against such teams as: Wofford, Tampa, Stetson, Georgia State, Florida Presbyterian, and LaGrange.

Bill Naylor, sophomore, forward.

Lack of Hitting Hurts Bears in 1966

The Bear baseball team had a disappointing season in 1966, falling short of the .500 mark with a 9-10-1 record. Following up last year's great season, the Bears jumped off to an impressive 4-0 record, greatly aided by the pitching of Dewall Waters and freshman Harvey Cochran.

The downfall of the Bears is attributed to a lull in the hitting in clutch situations and the mass of unearned runs collected by opponents.

Dewall Waters pitched the first no hit game of nine innings in Mercer's history in the second game of the season, crushing Valdosta State 2-1, and putting the first loss on the Rebel's record.

As Coach Claude Smith expressed it, this year's team had the best pitching he has seen since he started at Mercer, along the lines of consistency, but the lack of hitting put a damper on a potentially great season.

As an example of the poor hitting on the part of the Bears, the top batting average this season was mustered by John Collier with a meager .265, while the other star hitters such as Manton, and Ogburn ranged in the .230's.

Though the Bears' record reflects more losses than wins, they had some very close games, many of which were lost on unearned runs. The pitching staff was led by Ronnie Davis (3-0) and with the loss of him and Waters, the weight of a winning season next year will fall an Cochran. Next year should be a rebuilding year for the Bears, but if the drafting goes well, the team could come out with a winning season . . .

Rocky Season for Tennis Team

The 1966 Bear Tennis team was composed of seven Mercer men who are in their respective positions on the team: Emmett Young, Bobby Sikes, Charles Cook, Steve Nathanson, Ken Pipkin, Pat Patton, and Dennis Sanders. Their 4-11 record includes wins over North Georgia, Georgia State, and Florida Presbyterian. The Bears lost to the major powers of the University of South Florida, Tampa University, Auburn University, and Murray State. They had several close encounters as they lost six matches 5-4. The 1966 season was rather disappointing, but only two of the team, Bobby Sikes and Pat Patton, will graduate. Thus, the prospects look better for the 1967 season.

Concentration is required for this serve.

Building Season for Golf Team

Coach Zeb Vance's Mercer golf team finished this year with a 4-6-2 record. This was only the second losing season the team has posted in 14 years. However, one victory the Bears are proud of was a win over Presbyterian College, presently the South Carolina Intercollegiate Golf Champions, by a score of 14-13.

Returning lettermen next year will be juniors Ed Everett and Van Massey, sophamores Bill Atwater and Jay Harper, and freshman Chris Borders. Not returning are Jim Carson and Bobby Johnson, graduating seniors.

Leading the Bears this year was the team's No. 1 man, Ed Everett, who placed with the lowest individual score and losing only one individual match out of the twelve played.

Law Review

Founded in 1949, the Mercer Law Review is now in its seventeenth year of publication. Two issues are published each school year, and since 1950, the first issue of each volume has been devoted to an annual survey of judicial and legislative developments in Georgia law. Lead articles are written by outstanding members of the bar and the law-teaching profession. Student members of the Review contribute comments and notes on recent decisions. Membership on the Mercer Law Review is based on academic average and legal writing ability. When a candidate member publishes his first written student work, he becomes an Associate, and upon his second publication, becomes a member of the Editorial Board. Editorial positions are filled by members of the Editorial Board.

The Gant Story

We believe that Gant shirts have a certain well-bred look that distinguishes them from all others. Careful tailoring and adherence to a strict tradition are qualities indigenous to Gant. The emphasis here is on meticulous detail in a heritage of conservatism.

Do you like a really neat, well fitting collar? Softly flared collar construction is gently RIGHT. Do you want to hang your shirt up? A trim hanger loop sees to that. Room to breathe? Oversize body construction is the answer. There's a full length box pleat back for trimness, too. Precise stitching lets the easy harrel cuffs roll up at mid-point.

The Gant shirt has been designed to serve you through a lifetime of correct dressing. There is painstaking workmanship in every fine Gant shirt...it comes from the expert craft of New England's finest shirtmakers. The craft explains why the careful details of these Gant shirts have been many times imitated but never duplicated.

Editor's Message

The '66 Cauldron — an innovation in Mercer yearbooks three color cover, a thought provoking theme, color pictures . . . a yearbook created entirely from the efforts of about six people . . . problems such as the lack of useable office surmounted by preparing the bulk of the pages in the Phi Mu Suite . . . This yearbook has been a part of myself - nine months of me in every page. I now present the '66 Cauldron to the students of Mercer University with hopes they enjoy and appreciate it as much as I am proud of it because the '66 Cauldron is a contemporary yearbook in everyway.

Tina Simmons, Editor.
